MOH 1200/SD

MP3 Music On Hold Player

The MOH 1200/SD is a MP3 music on hold player which may be connected to the external music on hold port of any phone system to provide messages to callers put on hold. The MOH 1200/SD plays audio files recorded in .mp3 file formats.

A Secure Digital (SD) Card is supplied along with the unit to store the Music On Hold audio content. Audio files may be easily downloaded in to the SD Card from any PC using the supplied USB SD Card Reader. The built-in SD interface can accept SD Cards up to 4 GB capacity, thus enabling the unit to play up to 64 hours of high quality audio for overhead music/messages used in retail stores (storecasting applications)

The MOH 1200/SD comes with a royalty free generic on hold message and hence is ready to be used right out of the box.

MOH1200/SD provides:

- MP3 audio playback
- Connects to any phone system
- SD card support up to 4 GB

Specifications:

Power supply	Through wall adaptor 9 V AC; 1W
SD Interface	Supports up to 4 GB SD Cards
Output	Both 8 Ω and 600 Ω available
Volume control	Provided on the right side of the unit
